That One Dept. Presents

ECO TOUR

সচেতন ভ্রমণেই শুরু হোক আমাদের নতুন পথচলা

SCENERIO ANALYSIS

The Beauty That's Breaking

Environmental Degradation

Plastic pollution, deforestation, waste mismanagement, water contamination, and wildlife disruption.

Overcrowding and Overuse

Iconic destinations like Cox's Bazar and Sajek are suffering due to high tourist volumes with limited infrastructure.

Community Exclusion

Local and indigenous communities are often left out of decision-making and receive limited economic benefits.

Neglected Heritage Sites

Historical locations like Paharpur suffer from poor maintenance and lack of awareness, risking irreversible damage.

PROBLEM IDENTIFICATION

Tourism is Booming... But So Are the Problems

Problem

What's Really Happening

Overtourism

Cox's Bazar receives 2.5M+ tourists yearly .. no limit or zoning

Environmental Degradation

Plastic, noise, diesel boats, litter, unregulated hiking destroying nature

Cultural Erosion

Heritage sites damaged by foot traffic, selfies, unmanaged crowds

Profit Leakage

Big city agencies dominate; local communities get minimal benefit

No Sustainability Standards

No eco-certification, green rules, or education for tourists

Unequal Tourism Spread

80% tourists visit only 3–4 hotspots, 70% of areas stay untouched

Tourism is not the problem — mismanaged tourism is

If Ignored !!!

Wildlife vanishing from **Sundarbans**

Coral reefs and dunes collapsing in **Cox's Bazar**

Ancient ruins losing integrity

Locals losing control, patience, and participation

Country missing long-term economic and global branding potential

TARGET GROUP ANALYSIS

WHO WE SERVE ?

Eco-Conscious Young Explorers

- Age: 18–35
- Urban-based (Dhaka, Chattogram, Sylhet)
- Travels 2–4 times/year
- Prioritize: budget, nature, meaningful experience
- Tech-savvy: 93% plan via phone or app

Community-Driven Travelers (Local or Diaspora)

- Age: 25–45
- Bangladeshi expats or locals seeking “roots” tourism
- Interested in rural stories, handcrafted goods

Domestic Family Tourists

- Age: 30–55
- Prefer convenience, affordability, safety
- Mostly visit Cox’s Bazar, Sylhet, Sajek
- 65% willing to try new spots if infrastructure is assured

SURVEY SPEAKS

Haniyum Maria Khan [Hmk1]

Senior Lecturer

M. Sc., University of Alberta, Canada

পর্যটন কেন্দ্রসমূহের নেতিবাচক পরিবর্তনের জন্য মানবসৃষ্ট কারণই মুখ্য। একটি সুদূরপ্রসারী, দীর্ঘমেয়াদি ও বাস্তবায়নযোগ্য সমন্বিত পরিকল্পনাই পারে এ থেকে পরিত্রাণ ঘটাতে।

What do eco-conscious travelers really want ?

77.3%

Overcrowding bothers most while traveling to popular tourist places

42.9%

Social media content & 33.3% recommendation influences travel decision most

66.7%

Use a mobile app that offers travel discounts and eco-friendly booking options

47.6%

Travel vouchers or discounts attract the most for participating in eco-friendly actions

Rewriting the Travel Story of Bangladesh

BIG IDEA

A smart, scalable **app-based** system that connects tourists to **offbeat eco-zones**

Our Vision:

Build a new tourism ecosystem in Bangladesh that is:

-  Guided by technology,
-  Driven by communities,
-  Committed to nature, and
-  Rewarding for responsible travelers — all through ECO-TOUR.

সচেতন ভ্রমণেই শুরু হোক আমাদের নতুন পথচলা

ACTION PLAN

Visitor limits enforced digitally
Plastic bans at sensitive sites
Eco-certified infrastructure only (Bamboo, solar, etc.)
Mandatory local hiring (50%+)

Travel Agency Integration Plan

Gov-certified sustainability training (mandatory)
Agencies must use EcoTour Certified stays/guides
Digital bookings via EcoTour app are compulsory
Reward & penalty system to ensure compliance

Cox's Bazar (Beach)

Daily tourist quota (digital e-ticketing)
Plastic-free beaches
Bamboo stalls & raised walkways
(no concrete structures)

Sundarbans (Mangrove)

Solar/electric boats only
GPS-regulated boat routes
Entry bans in sensitive seasons
Local community eco-ranger patrols

Srimangal (Tea Gardens)

Eco-certified homestays
(no plastic, compost toilets)
Regulated eco-friendly trails
Waste management monitoring
by local guides

Bandarban/Sajek (Hill)

Geo-mapped no-construction zones
(risk of landslides)
Only low impact eco-friendly bamboo
lodges allowed
Ban on off-road vehicles in sensitive
hill trails

Mahasthangarh (Heritage)

Digital AR-based signboards
(reduce physical damage)
Heritage trained guides only
Smart fencing & entry monitoring
via app

ACTION PLAN

LOCAL GUIDES

Train locals as eco-guides & storytellers →
Bookable via app

CRAFT & CULTURE

Prioritize local
handmade goods →
Craft markets inside
zones

HIRE LOCALLY

Jobs for locals in
security, food, cleaning,
logistics

WOMEN-LED STAYS

Support & list women-
run homestays →
Income stays local

CULTURAL EVENTS

Enable youth to host
stories, dance, music,
folk nights

INTRODUCING

Clear & Realistic Introduction of EcoTour App

ECO TOUR APP

Discover Wisely

Real-time eco-map, explore hidden gems & avoid overcrowded zones

Book Local

Homestays, eco-guides, cultural events — directly from communities

Travel Responsibly

Get reminders: plastic-free zones, refill stations, trail rules

Shop Authentically

Pre-order local handmade goods from each area

Stay Safe & Smart

Geo-alerts for no-go zones + SOS/report button anytime

সচেতন ভ্রমণেই শুরু হোক
আমাদের নতুন পথচলা

\$ EARN **ECO-REWARDS** – BECAUSE DOING GOOD SHOULD FEEL GOOD

- Visiting lesser-known eco-zones **+20**
- Using refill stations (no plastic) **+10**
- Booking verified local homestays **+15**
- Buying local handmade products **+10**
- Following app-based eco-guidelines **+5**

FM stories: weekly rural guides, EcoRewards tales

NTV, Prothom Alo, Channel i – lifestyle feature on "Bangladesh's Smart Travel Shift"

BUDGET OVERVIEW

Year 1 Pilot Budget Plan

Covering 5 Zones | App | Training | Marketing

Source	CATEGORY	ESTIMATED COST(BDT)	Reference/Source	Revenue Model
In-App Ads	App Development & Maintenance	2,500,000.00	Based on IndusNet & local IT firms in Dhaka	Targeted ads for eco-products, local brands, and transport services
	Eco-Rewards System Setup	1,000,000.00	Inspired by bKash QR system & Nepal Eco Rewards Model (Asia Foundation)	
Premium Bookings	Community Training & Hiring	1,800,000.00	UNDP Community Tourism Toolkit	Small eco-fee (2–5%) on bookings for overcrowded zones only (e.g., Cox's Bazar, Sajek)
	Homestay & Vendor Setup Support	1,200,000.00	Grameen Bank micro-enterprise data	
Partner Listings	Marketing & Campaign Launch	1,800,000.00	Based on Influencer Marketing Hub + BD Ad Agencies	Verified travel agencies, hotels, homestays pay small yearly listing fee
	TOTAL	8,300,000		

Total Estimated Cost: ₳83,00,000

Equivalent to USD ~\$68,377.18

Can be co-funded by Govt. (Tourism/ICT) + NGOs + Donors (UNDP, GIZ, World Bank)

• WHY THIS MODEL WILL WORK IN BANGLADESH

Proven Demand for Sustainable Travel

Bangladeshis willing to choose eco-friendly options if available.

82%

Are ready to visit offbeat, less crowded places. (Survey data)

70%

Prefer destinations that are culturally rich and eco-conscious. (Global trend)

60%

WHY NOW?

Post-pandemic recovery → Increased domestic travel & eco-consciousness.

Rising middle class + tech-savvy youth
(75% own smartphones, 2023)

Government's focus on eco-tourism
(Tourism Master Plan 2023–2041)

70% of tourist income is spent in only 3–4 destinations
→ Overcrowding & damage (source: UNDP Bangladesh)

82% of tourists say they'd support local if guided better
→ (WTTC 2023)

Economically Scalable & Self-Sustaining

Cross-subsidy model: Profits from overcrowded zones (Cox's Bazar, Sundarbans) reinvested into alternate zones.

App-based revenue from ads, premium bookings, and local partnerships (low cost, high scalability).

Incentivized local involvement: Eco-guides, homestays, and vendors provide direct employment, tourist satisfaction, and economic growth.

Community-first approach aligns with Bangladesh's strong social network and rural resilience.
