Repair, Rewire, Revolutionize

Low Risk, Lower Effort

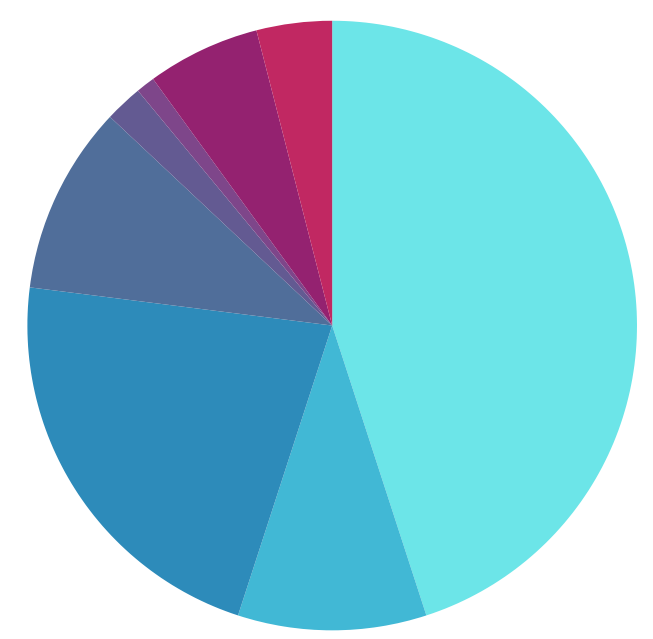

SITUATION ANALYSIS: BANGLADESH VEHICLE REPAIR LANDSCAPE

TorqueFix aims to bridge the gap

- ✓ Explosive Vehicle Growth
- ✓ Overwhelmingly Informal Industry
- ✓ Market Value & Passenger Car Density
- ✓ Component Imports & Market Complexity

VEHICLES' REGISTRATION	
Year	Average monthly registration
2023	29,694
2022	48,179
2021	37,085
2020	31,471
2019	41,452
2018	41,265
2017	34,944
2016	33,163
2015	25,661

Problem Identification

Bangladesh's Vehicle Repair Industry

Informal & Unregulated Sector

- Over 80% of vehicle repairs are handled by roadside garages.
- No service standards, safety protocols, or proper documentation.
- Quality varies drastically – no customer recourse.

Stat Source: LightCastle Partners or BIDS

Lack of Skilled Workforce

- Mechanics often rely on trial & error – no formal training.
- Unsafe repairs, poor diagnostics, and mismanagement common.
- No certification or upskilling roadmap.

No Accountability or Trust

- Cash-only payments → No paper trail
- No warranties, receipts, or follow-up channels
- Customers feel unsafe, zero transparency.

“ We can't even complain if something goes wrong ”

Digital Disconnect

- No apps, no bookings, no online tracking
- Urban, educated customers expect tech – garages don't deliver
- Lost efficiency & poor user experience

Mismatch with Modern Needs

- Urban car owners, Uber/Pathao drivers, & fleet operators want.
- Professionalism + Convenience + Accountability
- But all they get is chaos and delay

What are the biggest issues you've faced in local garages? (Select up to 2)

No warranty / poor quality

Roadmap

ECONOMY & COMMUNITY IMPACT

Impact Area

- Job Creation
- Skill Development
- Digital Inclusion
- Entrepreneur Empowerment
- Gender Equity Boost
- Urban Efficiency & Decentralization
- Digital Financial Inclusion

What TorqueFix Enables

- Generation of **vast amount of jobs** across mechanics, drivers, logistics etc.
- Training workshops uplift local mechanics with digital & technical skills
- Brings tech access to underserved communities via **mobile mechanics**
- Small garages become micro-franchisees, earning more via **performance bonuses**
- Supports female mechanics and customers with **bilingual app & wallets**
- Mobile geometry reduces congestion, speeds up service, supports e-bikes
- Introduces digital payments, invoices, e-warranties

Supporting Data / Context

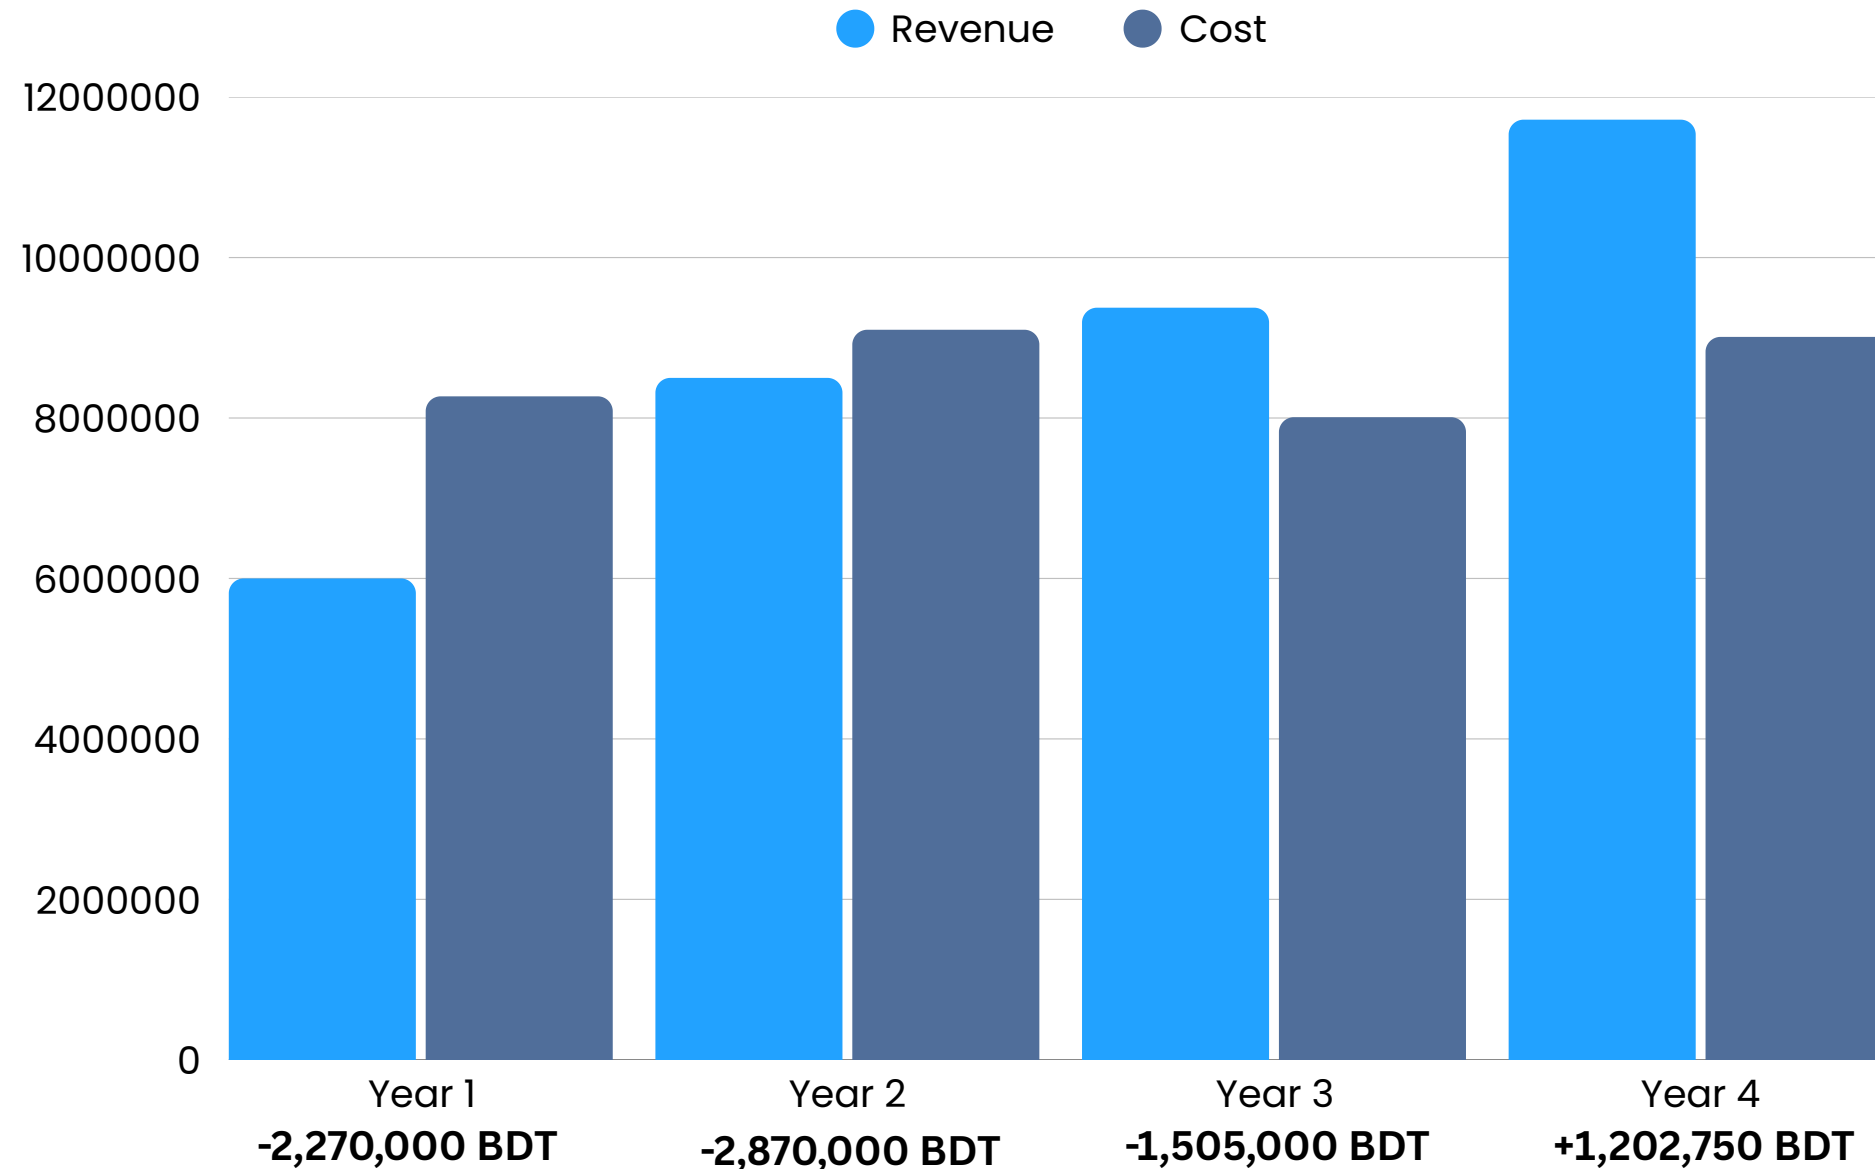

- 89% of Bangladeshi jobs are informal [ILO,2023]
- Youth in the informal sector (99%) rely on hands-on trades [ILO,2024]
- 77.7 million** internet users (~44.5% penetration) [BRTA, 2024]
- Relocating informal model into formal, scalable ecosystem
- Bangladesh has one of the highest mobile gender gaps [Dhaka Tribune]
- Built for Dhaka's low average traffic speed (4.8 km/h)
- Section pushing informal operations into the digital economy

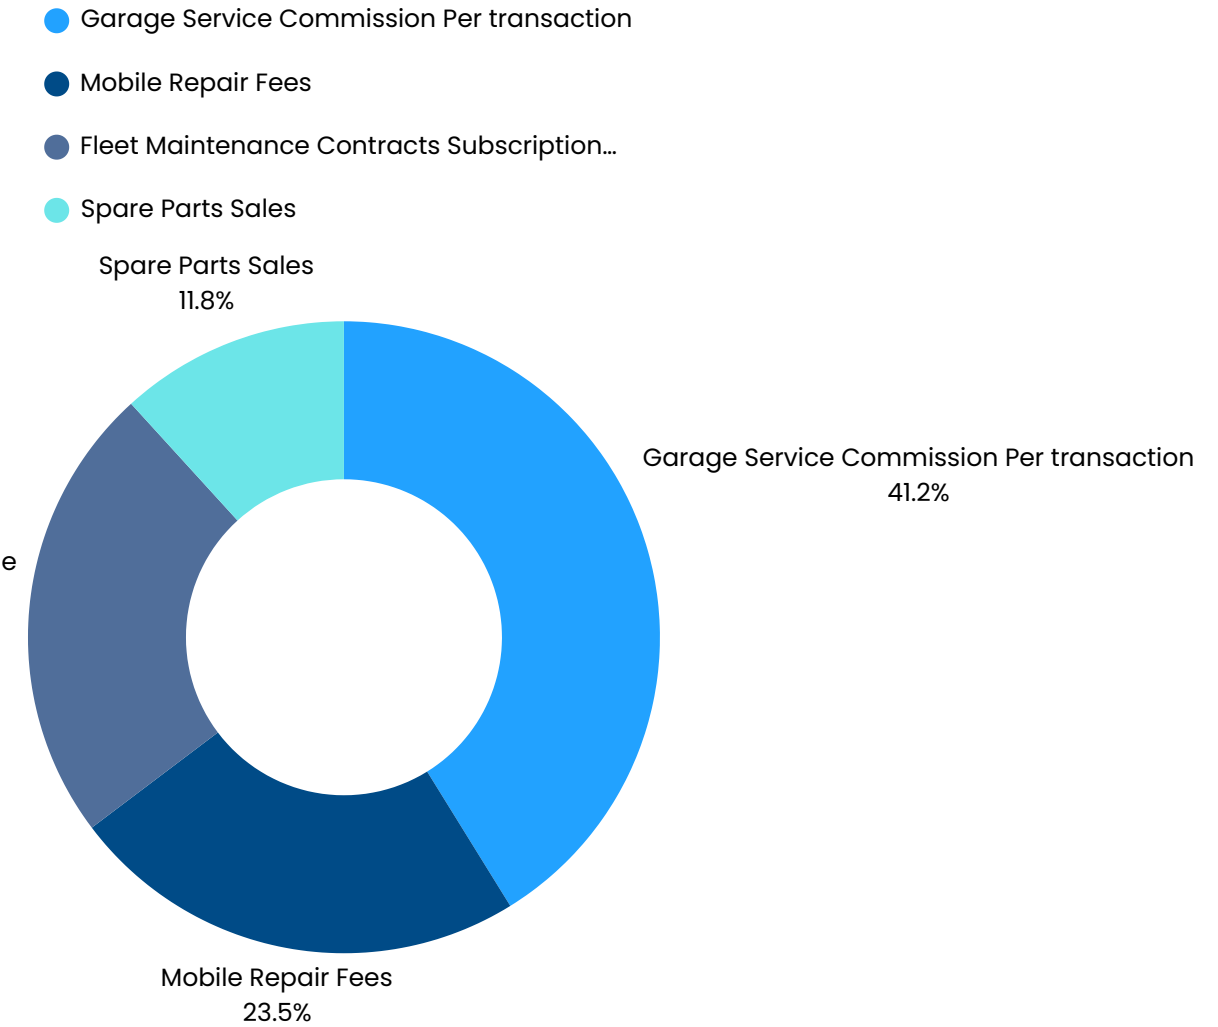

(6-Month Pilot: 10 Garages + 5 Mobile Units in Dhaka)				
Item Description	Units	Unit Cost (BDT)	Total (BDT)	Reference/Source
